ESQUARE contundente y sencillo. Sólido y simple. La conjunción de dos formas geométricas básicas, el cuadrado y el círculo, sirven de guía para plasmar el diseño. El cuadrado; básico, sólido y resistente se complementa con el círculo; dinámico, suave y cercano. Forma y función se conjugan en esta gama de complementos que ayudan a realzar el espacio que habitan como pequeñas piezas especiales en el entorno.

ESQUARE Striking yet simple. Robust and streamlined. Two basic geometric shapes, the square and the circle, come together to form the basis on which the design is expressed. The square—basic, robust and resistant, joins hands with the circle—dynamic, smooth and familiar. Form and function complement each other in this range of accessories that will help to enhance the space around these small but special articles.
